I agree with all the sentiments stated here For my job, I do a lot of remote support.. The lack of good options out there is to the point that I've seriously thought about trying to create my own; however, that is a big enough undertaking that I haven't tried to do that yet.. Apr 18, 2019 Free version (non-commercial use) — designed for home use and connecting to a small number of PCs; Paid (commercial) version — the number of connected PCs and the duration of the sessions are unlimited.
